

CHRISTO C

Full Stack Developer (Frontend-Heavy) | React.js, Node.js, FastAPI

christocdas0@gmail.com | +91-7293062470

LinkedIn: <https://www.linkedin.com/in/christo-c/>

GitHub: <https://github.com/christocdas0>

Medium: <https://medium.com/@christocdas0>

Full Stack Developer with 4+ years of experience building scalable web applications using React.js, Node.js, and FastAPI. Experienced in developing responsive frontend interfaces, designing RESTful APIs, and integrating databases for end-to-end application workflows. Strong understanding of API-driven architectures, state management, CI/CD pipelines, and building maintainable, high-performance systems in agile teams.

SKILLS

Frontend: React.js, TypeScript, JavaScript, Next.js, HTML5, CSS3, MUI, Redux, Zustand, React Flow

Backend: Node.js, Express.js, Python, FastAPI, REST APIs, Authentication, Authorization

Databases: MongoDB, PostgreSQL

Testing: Jest, Vitest, Unit Testing, Integration Testing

DevOps & Tools: Git, GitHub, Azure DevOps, CI/CD Pipelines, Docker, Postman

Cloud: AWS (S3, basic hosting & deployment)

EXPERIENCE

MATHCO – SOFTWARE ENGINEER (FULL STACK)

Bangalore, India | May 2024 – Present

Full-stack role contributing to enterprise-scale web applications across frontend and backend layers.

- Contributing to NucliOS, an enterprise-grade platform for building scalable, data-intensive, user-centric web applications.
- Developing and maintaining full-stack features using React.js on the frontend and FastAPI-based services on the backend.
- Designing and integrating RESTful APIs to support complex frontend workflows.
- Working with MongoDB and PostgreSQL for data storage and API persistence.
- Building reusable UI components and shared frontend libraries used across multiple applications.
- Working within a monorepo setup using Turborepo and npm workspaces.
- Writing unit and integration tests to ensure frontend and backend code quality.
- Implementing CI/CD pipelines using Azure DevOps to automate build, test, and deployment workflows.
- Collaborating with frontend, backend, and product teams in agile sprint cycles and code reviews.

POINTCROSS LIFE SCIENCE – SOFTWARE ENGINEER (FRONTEND)

Bangalore, India | May 2022 – May 2024

- Developed and maintained full-stack web applications with React.js on the frontend and Node.js/Express.js on the backend.
- Designed responsive UIs using React.js, Redux, and MUI following consistent design patterns.
- Implemented REST APIs supporting full CRUD operations.
- Integrated MongoDB for data management and backend persistence.
- Built reusable React components and an internal UI library to standardize frontend development.
- Collaborated in sprint planning, bug fixing, and code reviews within agile teams.

EDUCATION

Master of Computer Applications (MCA) – Pursuing
Indira Gandhi National Open University (IGNOU)

PROJECTS

Online Attendance Management System (MERN Stack)

- Built a full-stack, role-based attendance management system using the MERN stack.
- Developed REST APIs for authentication, attendance tracking, and user management.
- Designed responsive dashboards and integrated frontend with backend APIs.

E-Commerce Website

- Developed a full-stack e-commerce application with React.js frontend and REST API integrations.
- Implemented product listings, cart management, and checkout workflows.

OPEN SOURCE & TECHNICAL WRITING

- Published reusable packages and utilities supporting frontend and full-stack development.
- Actively working with monorepo architectures using Turborepo and npm workspaces.
- Writing technical articles on React, full-stack development, and scalable web architectures.
